STRUCTURE

The building's structure is built using the Plastbau system. This construction technology combines prefabricated expanded polystyrene (EPS) structural elements with steel reinforcement and a concrete core, offering several advantages for villa construction, such as:

- Thermal and acoustic insulation
- Structural lightness
- Speed of construction
- Energy efficiency
- Sustainability and structural strength

FAÇADE

The façade consists of Plastbau walls with external thermal insulation, giving it excellent thermal performance.

The façades are finished in white water-based paint.

Balcony guardrails in stainless steel and glass profiles.

Thresholds and window sills in "Vidraço Moleanos" limestone.

ALUMINIUM WINDOW FRAMES

Exterior window frames in grey thermo-lacquered aluminium with thermal break. Double glazing with air gap, giving the villa excellent thermal and acoustic comfort.

Electric roller shutters in aluminium with thermal break.

WALLS & INSULATION

Interior partition walls between rooms are made of plasterboard with rock wool insulation, finished in white water-based paint.

Exterior walls are plastered and painted in white water-based paint.

FLOORING

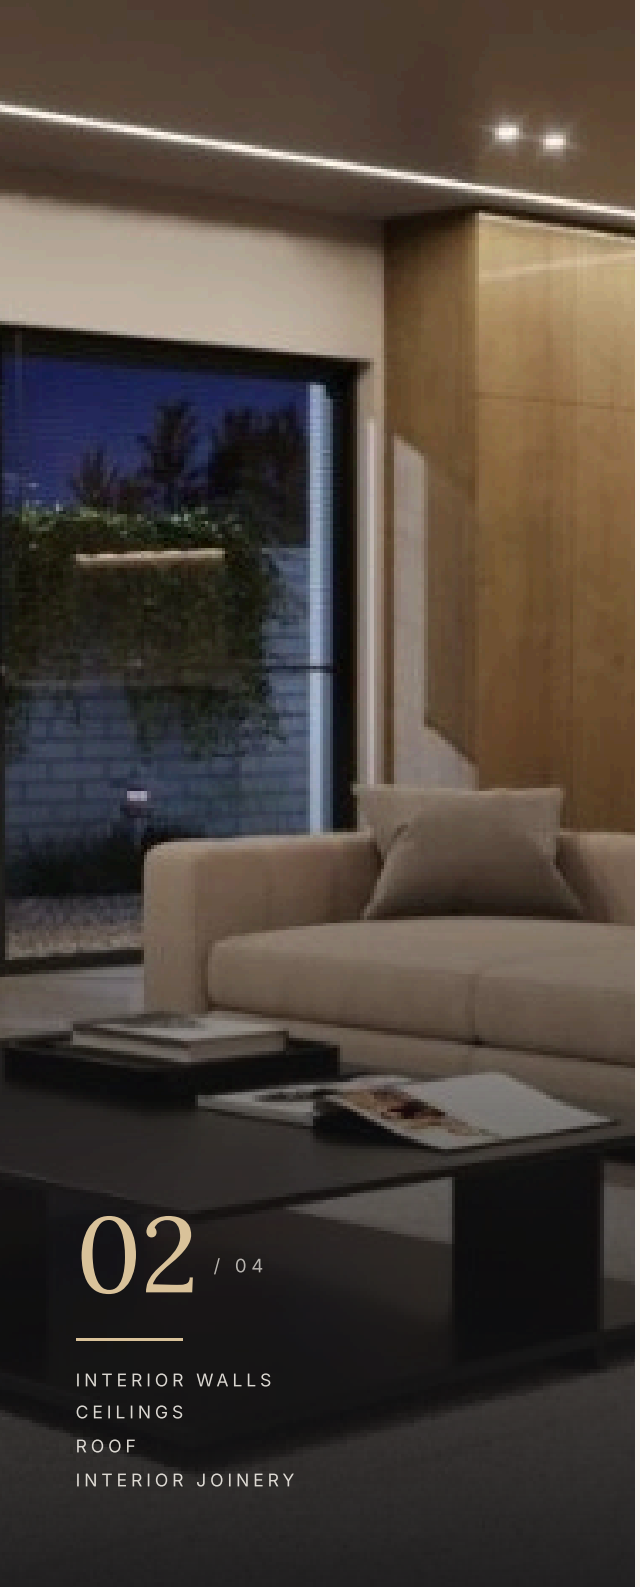

Bedrooms: high-durability floating floor, water-resistant, with thermal and acoustic comfort (up to €22.10/m² incl. VAT), with white lacquered MDF skirting boards.

Bathrooms, living room, entrance hall and corridor: ceramic flooring of the client's choice (up to €22.10/m² incl. VAT).

Kitchen: ceramic flooring of the client's choice (up to €18.50/m² incl. VAT).

Balconies and terraces: ceramic flooring of the client's choice (up to €18.50/m² incl. VAT).

Exterior: prefabricated paving slabs in travertine/concrete colour.

Specifications & Finishes

INTERIOR WALLS

The walls of the entrance hall, corridor, living room and bedrooms are in plasterboard with acoustic insulation, painted in white emulsion paint.

Bathrooms: moisture-resistant plasterboard walls with acoustic insulation and floor-to-ceiling ceramic tiling of the client's choice (up to €22.10/m² incl. VAT).

Kitchens: smooth walls painted in white emulsion paint. The area between the units is finished with ceramic tiling of the client's choice (up to €22.10/m² incl. VAT).

CEILINGS

The ceilings of the entrance hall, corridor, living room and bedrooms are in plasterboard with acoustic insulation, painted in smooth white emulsion paint.

The ceilings of the kitchens and bathrooms, being wet areas, are in moisture-resistant plasterboard with insulation, painted in smooth white emulsion paint.

ROOF

Flat roof, waterproofed and thermally insulated. The roof is accessible for maintenance purposes only.

INTERIOR JOINERY

Interior doors are flush, with a white finish and satin-finish chrome-plated steel hardware.

Built-in wardrobes in moisture-resistant chipboard, modular, with sliding doors in moisture-resistant MDF lacquered white and satin-finish chrome-plated steel hardware. The bedroom wardrobes include a hanging rail and modules with 3 storage drawers.
